

K-LOVE is a radio station that is very important to me and my community. It provides a positive, uplifting alternative to the rest of the music, much of which is demeaning to women, full of sexual content, and inundated with drug references.

The result of losing K-LOVE would be devastating to our community. We would lose all radio that is worth listening to.

It is in the public interest to keep K-LOVE because the future is our youth. If our youth is listening to music that demeans women, glorifies drugs and promiscuity, they will grow to be people who demean women, use drugs, and are involved in promiscuity.

Please do not let the LPFM take priority over current FM translator service, which K-LOVE utilizes to bring us their programming. We need our K-LOVE signal.
